Related Experience

Graphic Designer at Bluetext in Washington DC / August 2016 – Present

- Collaborate with project managers, fellow designers, creative directors and developers to create detailed and responsive user interfaces.

- Participate in the entire design process from being in initial meeting with client, developing moodboards and styleboards, wire framing, creating desktop and mobile website designs and working with developers to achieve a final product. Direct fellow designers when necessary.

- Adhere to brand standards established by myself or fellow designers in creating print and digital designs for clients.

Designer & Video Editor at Flip TV in Laurel, MD / August '12 – '16

- Extensively used Adobe Photoshop, Illustrator, Premiere, and After Effects to create digital and printed media including; DVD packaging, brochures, postcards, posters, social media graphics, vector maps and layouts of TV production vehicles.

- Edited and produced a variety of video programs including a weekly news show viewed by thousands of Seventh–Day Adventists in both Spanish & Portuguese.

- Managed multiple Wordpress websites for Flip TV's different branches.

JR. Graphic & Web Designer at DBR Interativa in São Paulo, Brazil / February '11 – '12

- Created wireframes and designed identity and branding for online store-fronts.

- Participated in brainstorming sessions with others to conceptualize campaign names and identities.

- Conducted research about different platforms for e-commerce and which were more effective for Brazilian users.

- Performed translations from English to Portuguese and vice-versa of various documents and graphics.
