Professional Summary

Senior User Experience Designer with 10+ years designing intuitive and scalable digital experiences across cybersecurity, healthcare, government, AI, and enterprise platforms. Skilled in collaborating cross-functionally to ship accessible, responsive, and high-quality, pixel-perfect designs on time. Experienced leading end-to-end design from discovery, research, iterative design and high-fidelity prototyping. Strong visual craft paired with a systems-thinking approach to interaction design and product usability through iteration and constant improvement.

Skills

Design: Product Design, Visual Design, Interaction Design, User Flows, Wireframing, Prototyping, Design Systems, Component Libraries, Responsive Web Design, Accessibility, Detail-Obsessed

Software: Figma, Adobe Creative Suite, WordPress, HTML, CSS, monday.com

Experience

Senior UX/UI Designer / Spire Communications • 2023 – 2026, Alexandria, VA

- Led UX design for the redesigned HealthIT.gov website, contributing to a **200% increase in engagement rate**.
- Designed and shipped an **80+ component design system** in partnership with engineering, creating scalable UI patterns that improved consistency and accelerated production in the CMS.
- Created wireframes, interactive prototypes, and high-fidelity responsive UI designs to support product direction and stakeholder alignment throughout the redesign lifecycle.
- Conducted usability testing and design validation in Maze and Figma, using findings to iterate on workflows, interaction patterns, and navigation structures before development.
- Worked collaboratively to ensure responsive, accessible experiences aligned with WCAG and Section 508 standards.

Sr. UX Designer & Team Lead / Bluetext • 2016 – 2023, Washington D.C.

- Led end-to-end UX and UI design across **17+ B2B and enterprise clients** spanning cybersecurity, AI, healthcare, government contracting, energy, retail, and telecommunications.
- Collaborated directly with product managers, developers, and executive stakeholders to launch responsive digital experiences across web platforms and data-driven products.
- Built and maintained design systems and reusable UI libraries that improved consistency across projects and reduced design-to-development friction.
- Produced high quality prototypes of responsive experiences throughout various projects in a variety of industries.
- Mentored a team of 5 designers, reviewed UX and visual design work across the practice.

Education

University of Maryland, College Park, Maryland / B.A. in Studio Art with a concentration in Graphic Design

Montgomery College, Rockville, Maryland / A.A. in Graphic Design
